TRADEMARK

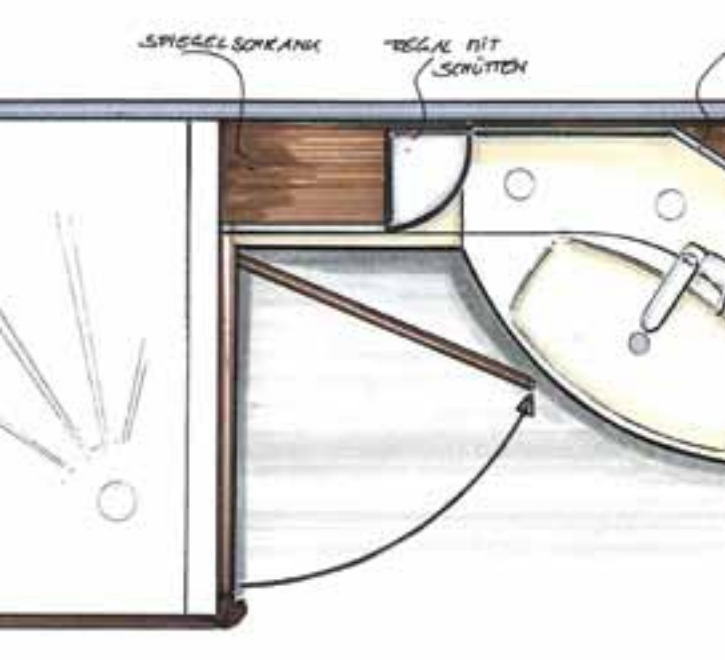

»Always a step ahead. And making holiday dreams come true.
These have been Hobby's mission for several decades.«

Harald Striewski
Company owner

TRADEMARK

UNIQUE DESIGN

What makes Hobby's caravans so popular with our customers? Their modern design. Soft, flowing lines. And the generous special design with plenty of well thought-out storage solutions. A Hobby combines a modern exterior with functional details on the interior. The result is beautiful caravans you can really feel at home in.

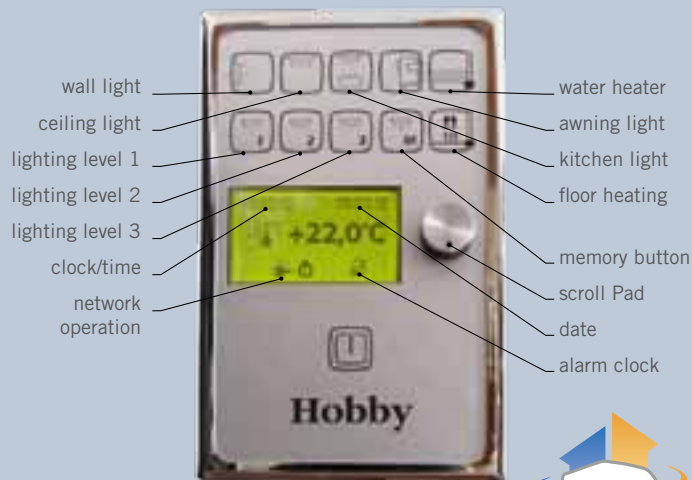

THE LATEST FITTINGS

An enjoyable journey, in all four seasons. Thanks to its excellent insulation, even in winter the Hobby easily keeps out the cold. The economical TRUMA-S heating guarantees cosy warmth. Well thought out furniture design and rear ventilated upholstery guarantee an excellent indoor climate. Modern, perfectly matching material combinations and a comfortable bathroom are two more reasons to enjoy the day inside your caravan.

ALL INCLUDED

With a Hobby caravan, you'll be on the road in comfort. And you won't have to add on costly extras, as even our standard fittings are exceptional more than you would expect: a hot-water unit, central lighting-control system, „Slim Tower“ refrigerator, extra-wide kitchen drawers, combi-cassette roller blinds and toilet bench are just a few of the features that will make your caravan everyday life a little bit easier. Many of our features are only available from Hobby.

ADVANTAGES OF HOBBY

CLEVER ENERGY SUPPLY

Hobby uses the very latest BUS technology in its caravans. With one centrally positioned operating panel, you can control the lighting and electrical appliances. Plus the Hobby ISP even goes a step further: This intelligent control programme forms part of the optional LCD panel. The latest generation of control technology keeps you informed with a number of useful measurements for your caravan and enables you to control further 230-V devices.

SAFETY AND COMFORT

On the safe side: In combination with a drawbar for the relevant vehicle length, our standard anti-snaking coupling stabilises the vehicle. Our Premium model series come with KNOTT brakes with automatic adjustment. This special technology for caravans with overrun brakes is adjusted automatically in the event of brake lining wear.

QUALITY AND GUARANTEE

Quality is a key component of Hobby's corporate philosophy. Our management system is certified according to the latest ISO 9001:2008 standards. The quality of our caravans is constantly monitored and documented at fixed production stations. Only when all quality checks have been successfully completed are Hobby caravans made available to the public. Our vehicles are guaranteed to be watertight for five years, subject to annual inspections.

DE LUXE

Perfect for families: In the Hobby De Luxe, you will discover the latest technology combined with inspired design. Practical and cosy, these caravans allow you to enjoy your holiday wherever you please. The ideal holiday caravan, in a variety of models.

From page **10**

EXCELLENT

Is comfort important to you while travelling? Do you value practical details and beautiful design? The Excellent series combine elegant design with functional features – just what you need for a relaxing trip.

From page **16**

PRESTIGE

You know what is important to you. So why compromise? A timeless classic, the Prestige combines tried-and-tested floor plans with modern design and details. So you'll feel right at home, wherever your journey takes you.

MODEL SERIES

LANDHAUS

Discover the charming Landhaus – a mobile country retreat. This caravan offers you a cosy home on four wheels! The classic static caravan lets you spend your holiday in your favourite location.

From page **28**

PREMIUM

Are you ahead of the times? Do you love exclusive design and elegant features? The Premium series is the perfect choice for those who are looking for something special and strive for innovation. Experience a whole new world of camping.

From page **32**

VERY INDIVIDUAL

Our customers have their own unique style and know exactly what they're looking for. That is true for every aspect of life, but above all for spare time. With our five model series, we can offer you a broad range of individual caravans.

But we don't stop there – in each model series, you can choose between a number of different layouts. That way you can find precisely the caravan that suits your needs and requirements best.

For singles, couples and families; for short trips or long holidays – we hope you enjoy your stay in the ideal caravan for you!

DE LUXE

»Young, free and flexible:
That's the way we live our lives,
and the way we feel when we're in
our Hobby De Luxe.«

DE LUXE

The De Luxe is a cosy place for young families to retreat to

DE LUXE

A warm, cosy, uncluttered living room: thanks to the many easily-accessible storage spaces

①

③

YOUR OWN HOME ON WHEELS

You value simplicity in life. Objects in your home should be practical, but at the same time should also look good. And you have the same expectations in your mobile holiday home. That's why a Caravan from our De Luxe series is ideal for you!

We want you to be able to enjoy the ideal set-up for you on holiday according to your own requirements. After all, where better to relax than a place where you feel most comfortable? That is why we let you choose from several different floor plans, so you get the De Luxe model that suits you and your family best.

As different as the various layouts in the series are, all models have one thing in common: a clear and uncomplicated interior with lots of practical features, easy to clean surfaces and a range of standard fittings – the quintessential Hobby!

AN INCREDIBLE SENSE OF SPACE

Every single centimetre in your Hobby De Luxe is carefully considered in an optimum use of space. So even as a family you'll have plenty of space and can enjoy a generous sense of space. Clever storage facilities will make sure there is a space for you to store everything you need throughout your travels. And then access it with ease whenever you need.

ELEGANT AS WELL AS PRACTICAL

The sporty guy with good taste and an eye for high quality materials – would you say the description fits? Then perhaps that's why you like the Excellent so much!

Hobby has designed this model series for caravan fans who know precisely what they want: a caravan that will offer them holidays full of exciting experiences and deep relaxation.

The tasteful interior design in Excellent models provides all the comfort you need to enjoy long, care-free holidays. And one of the twelve different floor plans is sure to suit your needs perfectly.

ALL GOOD THINGS COME IN SMALL PACKAGES

A compact build that still offers plenty of space: The Excellent 460 LU is our most compact single-bed vehicle with an interior length of 5 metres. But this small model certainly doesn't fall short when it comes to interior fittings. As with all floor plans in the Excellent series, interior design is optimised to gain as much space as possible.

③

CLASSIC BEAUTY

A classic, brought up to date: Like all Hobby Caravans, the Prestige range has also been given a new colour scheme. The upholstery and curtains match and also blend in perfectly with the fittings. But these caravans are not just beautiful to look at, but also boast very practical features. Depending on the floor plan, the Prestige offers plenty of space for either couples or families.

STYLISH AND COMPACT

The Prestige series offers ten different floor plans to choose from. The floor plans 455 UF and 495 UL are the most compact couples models with a width of just 2.30 metres. This makes them a very manageable solution. Despite the small dimensions, the models are just as well equipped as their larger siblings.

MORE ROOM FOR CHILDREN

The Premium continues to set the standard. And it's no wonder – This series offers everything you would expect from a top of the range caravan, all at an unbelievable price.

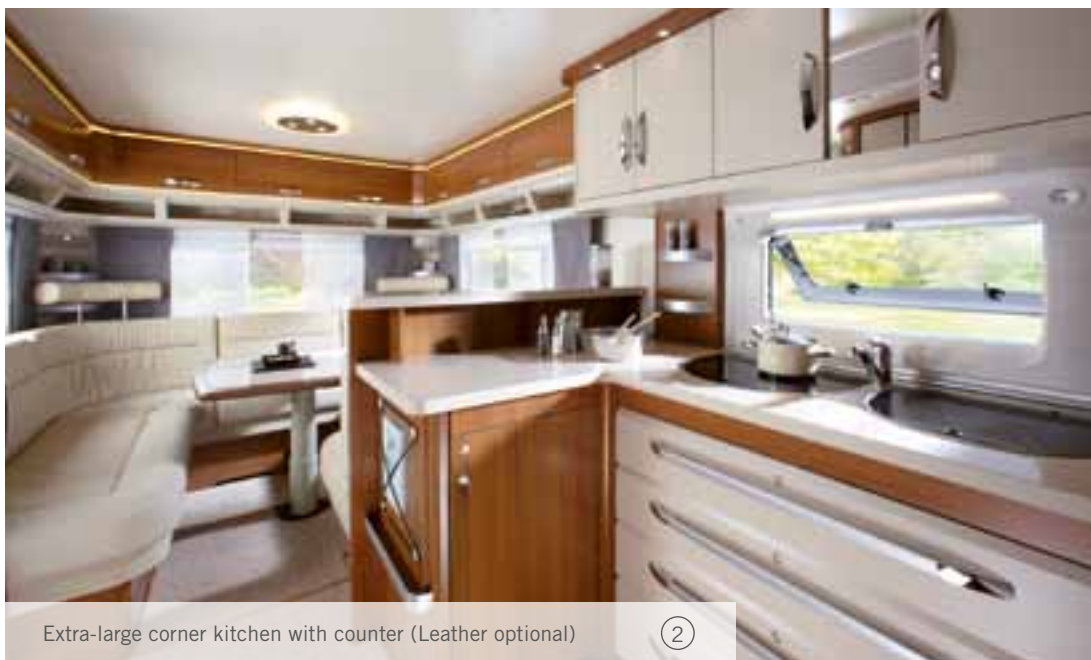

Thanks to the two new children's bed floor plans, our junior campers also get comfortable place to sleep of their own. The intelligent division of space offers enough room for the whole family.

The very modern interior design creates an impressive atmosphere. Tasteful upholstery, elegant wood shades and high-quality kitchen fittings are complemented by atmospheric lighting.

A generous sense of space (Leather optional)

WELCOME TO THE FUTURE

Soft, flowing lines. Sparkling surfaces. Handles and hatches that fit seamlessly into the overall design. The Premium looks as if it were made from a single mould. Make yourself comfortable in the caravan of the future!

The Premium not only looks stunning on the outside, but also offers a surprising array of extras on the inside – Making your mobile life even more enjoyable. The locker space in the rear is a particular highlight, and offers you storage space for camping tables and chairs, for example.

The low locker sill makes changing gas cylinders safe and easy. The cover with two solid positioners can be opened upwards easily. Plus an aluminium chequer plate ensures greater stability.

COMPACT LUXURY

With a total of twelve floor plans, the Premium series offers the right caravan for every requirement. Which ever model you choose, you won't have to worry about compromising on luxury. Even our smallest model offers excellent comfort and plenty of space for relaxing holidays. At the same time, their manageable size makes these caravans easy to manoeuvre.

No compromising on luxuries, even in the smallest Premium model

LIVING SPACES

»Our priority is to maintain our well established tradition,
while constantly striving for innovation.«

LIVING SPACES

SLEEP COMFORTABLY

There's nothing better than falling tired into bed after a day spent out in nature. With slatted frames and high-quality sprung mattresses or cold foam mattresses, you'll be sure to get a good, relaxing night's sleep in your Hobby caravan's sturdy beds. For models with single beds, you have the option of roll-out bed extensions, which allow you to create a large bed space, as and when required.

Plus there are even more smart ideas when it comes to children's beds. Cloth bags provide storage for the little one's favourite treasures – handy for when they're required at bedtime, and also for keeping things tidy during the day. In the morning, the lower bed can be folded up, creating space for play below – and the bottom of the bed even transforms into a wipe-clean colouring board. The teddy bear bedside lights are also designed with children in mind. Turn the bear by the nose to dim the light – perfect for sending little campers off to sleep.

A COMFORTABLE NIGHT'S SLEEP

Light-flooded central washroom

Cascade water tap in bathroom

THETFORD C-500 toilet bench

REFRESHING IDEAS

When developing our new washroom, our main priorities were a harmonious design and practicality.

Shelves and cupboards are ideal for those essential travel toiletries and cosmetics. The cascade tap fits seamlessly into the modern bathroom design. The Excellent series and upwards all feature toothbrush holders as standard, and all washrooms are equipped with an easy-to-use door handle.

Our toilet bench was custom designed for our washrooms. Smooth surfaces make the WC pleasant and easy to care for.

„Slim Tower“ refrigerator, 140 litre volume

★★★★★
EXCLUSIVELY
from Hobby

USEFUL DETAILS

The kitchens are a great example of the cleverly thought-out interior fitting in Hobby caravans. For example, the exclusive „Slim Tower“ refrigerator with its generous 140-litre volume was relocated from the kitchen block itself. This created extra storage space - which we took advantage of with soft-closing drawers and two spacious wall cupboards. So you have enough storage space for all your food items and cookware for an entire family. Storage basket units and pull-out drawers can be pulled out completely so that not a single centimetre goes to waste. Behind the top drawer (and therefore easily to access) are the shut-off valves for the central gas supply.

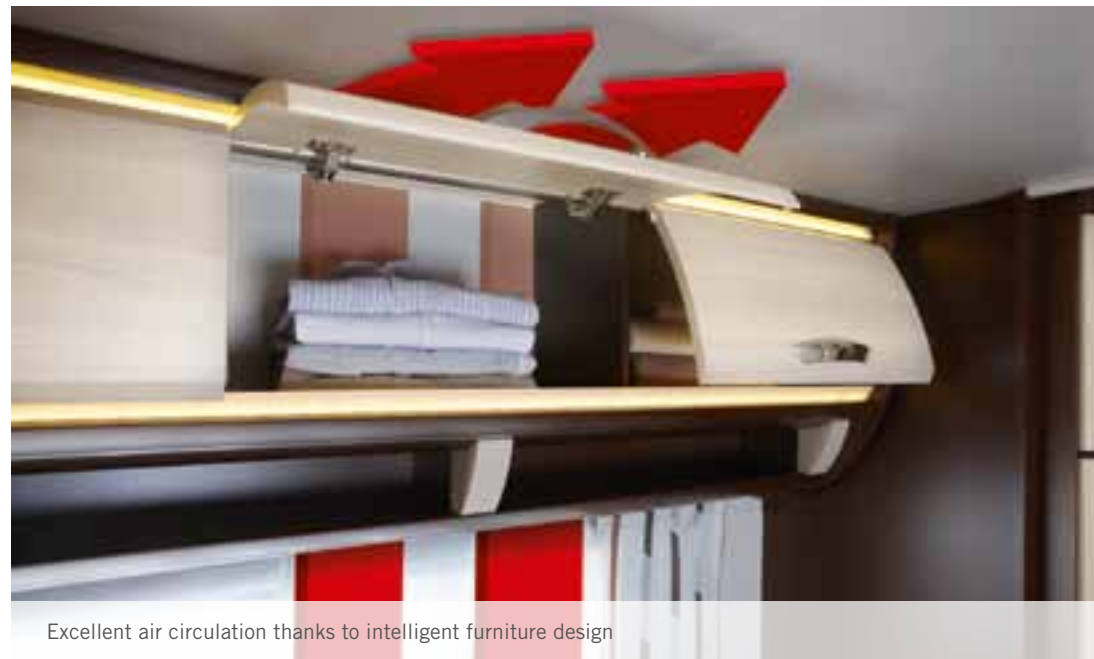

WARM FEET IN THE WINTER

No need to worry about getting cold feet: Thanks to optional electric floor heating and ALDE water heating, your caravan will always be at a comfortable temperature, even in cold weather. The extra-large distances in the winter ventilation ensure a good distribution of heat and optimum air circulation.

Then in summer, anyone wishing to watch a film in the awning will be glad of the TV unit right next to the front door. The TV Arm allows you to swivel the TV outwards when required. In the evening, insect protection pleated fabric on the roof light and windows in the living, sleeping and kitchen areas keep out any unwanted insect visitors. Additional blackout and insect protection blinds are just the thing for a long, undisturbed sleep.

LED mood lighting in living area (model-specific)

Excellent air circulation thanks to intelligent furniture design

Stable chassis with plenty of handy details – one of the distinguishing features of a Hobby caravan.

The caravan drawbar is precisely calibrated with the chassis in order to optimise handling. The cover of the drawbar can be stepped on and provides a continuous appearance. And the anti-snaking coupling by WINTERHOFF offers maximum safety while driving. Plus the anti-snaking coupling from WINTERHOFF offers maximum safety while driving.

Plus: our chassis include drill holes for assembling a TRUMA Mover. The Mover is quick and easy to assemble, saving you time and money!

CHASSIS

SAFE AND FUNCTIONAL

In the design of our caravans, safety and comfort given top priority.

As you can see for example with the large service hatches at the side and the awning rail with feeding assistance. The rail is integrated into the covering of the edge trim and therefore fits in harmoniously with the outer appearance of your caravan.

In addition to the surround lights, the large rear lights and third brake light ensure added visibility in road traffic. The spacious gas cylinder locker holds the gas supply steadily in place and offers enough space for the rollable waste water tank and an optional spare wheel.

○ Special accessories • Standard fittings - Not technically supported

STANDARD FITTINGS (GENERAL)

These features are in all Hobby caravans:

CHASSIS / SAFETY

- One-key closing system
- Wheel shock absorber
- WINTERHOFF anti-snaking coupling WS 3000
- Drawbar cover

- Awning light
- Hard wearing, easy to care for PVC floor covering
- Upholstered backrests
- Ceiling lights above the seating unit

INSULATION / VENTILATION

- All windows: combination-cassette with sun and insect protection (not bathroom window)
- DOMETIC-SEITZ roof light, Midi-Heki 700 x 500 mm with blackout and insect protection blinds
- Double-glazed hinged window
- Insulated wheel arches
- Rear-ventilated storage cupboards
- Winter backrests (winter ventilation)

KITCHEN

- Stainless-steel combination with basin, three-flame gas cooker and glass cover

BATHROOM

- THETFORD cassette toilet

ON-BOARD TECHNOLOGY

- Electronically regulated power supply
- Residual current circuit breaker
- Antenna socket with co-axial cable
- Central gas distributor in kitchen area
- Gas regulator with over-pressure protection (DIN EN 12 864) and hose line
- Jaeger 13-pole passenger vehicle connection plug
- TRUMA heating unit for hot water supply
- Rollable waste water tank (22 l)

STRUCTURE / AMBIENCE

- Edge trim covering with integrated awning rail
- Wheel arch guard with integrated Keder rail
- Split entrance door with window, waste bin, storage areas and pleated fabric for insect protection in door frame
- Easy-access step

– Not technically supported

TECHNICAL DATA

The roof/wall thickness on all models is 31 mm, the floor thickness 40 mm.

Deviations of up to 5% are possible in weight data due to the use of natural materials. All dimensions are non-binding and may be subject to minor changes. We reserve the right to make modifications to equipment and fittings. The water supply system represents the latest technology as of 03/2009 (directive 2002/72/EC).

- Depending on the model and equipment level, the unladen vehicle may be up to 50 mm higher.
- The technically permissible gross weight must not be exceeded under any circumstances.
- The weight in the ready-to-travel state includes the unladen weight of the standard caravan plus the basic equipment. The basic equipment is made up of a completely full 11 kg aluminium gas bottle, a 100 % filled fresh water tank and if applicable a toilet flush tank and cable drum.

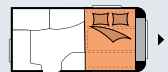

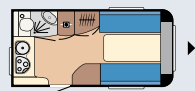

The basic fitting for the models 380 – 400 SF equals: 61 kg, models 400 SFe – 495: 62 kg, 540 – 720 UML/UKFe: 87 kg, models WLU, WFU, KMF, 720 KFU: 71 kg, Landhaus: 88 kg
- The loading corresponds to the difference between the „technically permissible gross weight“ and the „ready-to-travel state“. This value must take account of the values for optional extras and personal items..

NOTE:

The models featured in the brochure also currently have optional extras or decoration that are not part of the standard scope of delivery. Deviations in terms of structure and colour compared to the featured furnishings are subject to change provided they have to do with the nature of the materials used and are found in the trade. The same applies to technical changes to the vehicle provided the product quality remains the same overall or is improved and the purpose of use is not impaired.
