

ERIBA Caravan model year 2014.

ERIBA Touring. ERIBA Feeling. ERIBA Exciting. ERIBA Nova Light.
ERIBA Nova. ERIBA Nova S.

ERIBA

Rudi Fimpel is head of the Caravan Division at HYMER comprising all the ERIBA model series.

ERIBA Caravans

The perfect way to enjoy your leisure time

Holidays – that means escaping from the daily routine, living out your freedom, discovering something new, searching for adventure, and finding excitement as well as relaxation. In short, everything that caravanning has to offer. How else could you enjoy this leisure time better than in an ERIBA caravan, the perfect companion for your perfect holidays?

From a long weekend to your annual holidays: If you want to leave your daily routine behind you, if you love to stay flexible and prefer to travel just as the fancy takes you instead of planning a long way in advance, if you want to be down to earth and change your location spontaneously if the weather is better somewhere else or the panorama is more idyllic – if you simply want to experience more during the best time of the year, caravanning is ultimately the ideal way.

Sociability, proximity to nature, fun and relaxation are what young people value most, not forgetting those who remain young at heart. And so do very young caravanners because this type of holiday is a totally special adventure for children and their families – and much simpler and more relaxed than in a hotel. **This is what we take** into account when we design every new ERIBA caravan. In fact we attach great importance

to creating the comfort you expect so that you feel totally at home in your ERIBA caravan. We always keep in mind that the secret lies in achieving just the right blend of exclusivity, practicality and value for money.

Besides many of our own experiences, the many wishes expressed by our innumerable customers flow

“Every ERIBA contains many valuable suggestions from passionate caravanners – often arising from personal conversations on camping sites.”

Rudi Fimpel

into our designs. Very often we have received these wishes directly from you, our customers, when we have struck up a conversation with like-minded people on camping sites.

It is always exciting to discover how all the great and small ideas come together to form a new ERIBA. In addition

we integrate our own high expectations of performance and quality until the finished item is soon observed on camping sites all over the world.

From the legendary ERIBA Touring with its first-class handling, the modern ERIBA Feeling and the practical and family-friendly ERIBA Exciting through to the luxury of the ERIBA Nova Light, Nova and Nova S:

we offer the well-engineered, high-quality caravan to cater for virtually all customer wishes. You can also choose from numerous optional extras and customisation options – to enjoy the freedom that comes from a holiday in a tailor-made ERIBA caravan and in a totally unique way.

ERIBA Caravans

A unique success story

1923

Alfons Hymer starts production of agricultural vehicles.

1957

Erich Bachem ("ERIBA") and Erwin Hymer build the original Troll, the first caravan.

1960

Birth of ERIBA Touring models Puck, Faun and Troll followed by Pan, Familia, Triton and Titan.

1966

Introduction of the ERIBA Nova model series.

1976

Appearance of Eribette, a compact alternative to the ERIBA Touring built of wood.

1978

Development of the innovative PUAL wall construction. It soon proves its ruggedness.

For over 50 years, the name ERIBA has stood for innovative caravans and has set standards for quality and comfort. Many ERIBA model series have influenced design trends in the caravan sector over several decades – and in turn have undergone radical changes themselves.

<p>2004 "caravanning Design Award": ERIBA Nova</p>	<p>2006 "reddot design award" and nomination for "Design Prize FRG": ERIBA Feeling</p>	<p>2008 "caravanning Design Award": ERIBA Touring ForeverYoung 530</p>	<p>2008 "Caravan of the Year" (readers' prize of the German "Caravanning" magazine): ERIBA Feeling, ERIBA Nova S</p>	<p>2009 "Best interior design" (Caravan of the Year in "Which Caravan Magazine"): ERIBA Nova 580 SL</p>	<p>2011 3rd place for premium caravans ("Promobil" readers' choice): ERIBA Nova S</p>

ERIBA quality – at the highest level ready for the road at any time

The product advantages listed here may not apply to all model series.
You will find detailed descriptions of each model series in the price list and the series highlights in this brochure.

- 01 **Safe gas bottle locker:** Easy access to the large nose stowage compartment is through a locker door held wide open by a gas-filled strut; the gas bottle locker is totally insulated from the living area.
- 02 **Strong PUAL body:** The entire body including the roof and walls are made of a 30 mm thick PUAL construction – ERIBA caravans also benefit from HYMER motorhome technology which provides excellent insulation, stability and long life.
- 03 **Optimised aerodynamics:** The rounded body shape – unique in caravan construction and only possible using PUAL technology – together with the flat nose ensure much better aerodynamics.
- 04 **Patented awning rail:** Integrated in the side wall, the awning rail provides the awning piping with a solid attachment. This helps you set up the awning or sun sail more easily, rapidly and safely.
- 05 **Solid floor:** The 41 mm thick floor has an amazingly high load-bearing capacity and weather resistance, thus forming a safe base for ERIBA caravans. On the Nova S and the Exciting it even accommodates a hot water underfloor heating system.
- 06 **Sturdy furniture:** The furniture construction in ERIBA caravans is packed with masses of motorhome technology. For example, all joints are bolted and also mortised; aluminium profiles strengthen ceiling high furniture items, e.g. the stop and hinge seat for the washroom door.
- 07 **Back ventilated overhead storage cupboards:** Hot air circulates unobstructed along the rear walls of the overhead cupboards through an intermediate layer – even when the cupboards are full. This gives no chance to condensation.
- 08 **Strong fasteners:** Fixed, vibration-proof flush closing devices keep all locker doors and doors safely closed while travelling.
- 09 **Safe entrance:** The entrance door and all outside locker doors are safely locked by a security key with internal track system – to keep unwanted guests away, together with the insect screen door.
- 10 **Double glazed side windows:** Tinted windows with double acrylic glazing offer plenty of protection from light and heat loss. Insect and blackout blinds with vent position are standard equipment.
- 11 **Sleep soundly:** Multizone cold foam mattresses with removable drill cover combined with ERGO wooden slatted frames or the optional cup spring slatted frames guarantee sound relaxing sleep.
- 12 **De luxe living comfort:** A comfortable, generous seating group with ergonomically shaped back cushions and ideal seat depth promises cosy evenings in the caravan. You can always sit comfortably on any side of the seating group thanks to the single column lifting table with adjustable table top.
- 13 **Panorama:** The large ERIBA panorama roof window provides plenty of daylight and fresh air. The highlight: it can remain slightly open even when it rains. An insect screen and folding blackout system are integrated in the inner frame.
- 14 **Heating system:** In numerous tests, it was found that ERIBA caravans warm up quickly with an even temperature distribution throughout the entire caravan – and to cap it all, gas consumption stays low. The Exciting, Nova and Nova S series even offer hot water heating.
- 15 **Stowage space:** From inside the caravan you have easy access to the large bed box stowage compartments due to the wide fold-up wooden slatted frames, or from the outside through the large exterior stowage compartment locker doors measuring 100 x 40 cm.
- 16 **AL-KO safety chassis:** On ERIBA caravans, the total length, vehicle width, maximum approved mass and total weight are optimally matched to the AL-KO chassis. The drawbar, which is 10 to 20 cm longer than comparable rival vans, offers an additional safety margin.

ERIBA technologies. Two methods – one standard.

01

01

01

ERIBA-HYMER PUAL TECHNOLOGY

02

01 ERIBA-HYMER PUAL technology – an outstanding technology prevails.

PUAL technology is used in the model series ERIBA Feeling, ERIBA Nova, ERIBA Nova LuxusLine and ERIBA Nova S. This unique construction was developed by HYMER in 1978 and is the benchmark for advanced technology.

The unique PUAL construction method, which HYMER/ERIBA still uses today to set standards, is highlighted by its outstanding insulation for the walls and roof.

The excellent insulation of the closed pore PU foam guarantees pleasant temperatures throughout the whole year and ensures low gas consumption in winter. The thermal insulation is equivalent to a solid brick wall 68 cm thick.

Moreover, this construction method is absolutely waterproof and rotproof. The walls and roof are manufactured in one process and can therefore withstand extreme stresses.

The thermal insulation composite system also offers an absolute waterproof bond on the transitions to the side panels and nose.

Very long life: The closed pore polyurethane core of the PUAL construction is absolutely resistant to water and ageing. Even if the robust aluminium outer skin is damaged, the construction remains totally waterproof.

Unique ruggedness and watertightness: the walls and roof of ERIBA caravans – just like on HYMER motorhomes – have an extremely robust, full foam PUAL body. They are joined together by gapless resilient bonding.

- (A) Thermal insulation = equivalent to a solid brick wall 68 cm thick
- (B) Aluminium outer skin
- (C) Fine pore polyurethane foam
- (D) Surrounding plastic corner profile
- (E) Gapless resilient bonding
- (F) Breathable plywood layer
- (G) Insulated floor

02 ERIBA-Touring technology.

The unique construction method comprising the legendary steel tube frame originally used in aircraft construction has been in existence for over 55 years. This aerodynamic, lightweight, self-supporting and rotproof construction is extremely stable and ensures long life and excellent trailer characteristics. The outer skin consists of stove-enamelled aluminium and a raised roof shell made of GFR plastic.

- ✓ AERO construction with steel tube framework
- ✓ Low overall height (226 cm in travel mode)
- ✓ Outstanding trailer characteristics
- ✓ Chassis with independent suspension and shock absorbers
- ✓ AKS anti-snake stabiliser with auto-reverse mechanism
- ✓ Raised roof with 26 mm sandwich insulation and two scissor frames
- ✓ Standing height under raised roof: 1.95 metres

02

02

ERIBA-TOURING TECHNOLOGY

ERIBA: We want you to arrive safely

Even the journey to your destination should make you feel safe. This means your holiday begins when you get behind the wheel.

- ✓ **Safe journey:** The outstanding trailer characteristics and road-holding are the result of many years of experience in caravan construction.
- ✓ **Solid floorpan:** The AL-KO Vario safety chassis with semi-trailing link axles and independent suspension are the basis for a safe journey.
- ✓ **More than 50 years experience:** On ERIBA caravans the weight, width and length are optimally matched to the chassis components.
- ✓ **More length – more safety:** The extra long drawbar offers plenty of space to fit a bicycle rack. It is also a decisive factor to improve trailer characteristics.
- ✓ **Suppressed snaking:** The new optimised anti-snake stabiliser (AKS 3004) with automatic overrun brake system and auto-reverse mechanism.
- ✓ **Proven so many times:** The built-in AL-KO safety braking system ensures continuous braking action for strong and safe braking.
- ✓ **Sturdy lightweight construction:** ERIBA caravans offer a high payload reserve thanks to their extremely sturdy, fully galvanised AL-KO lightweight chassis.
- ✓ **Clever:** The systems for gas, water and electrics are so cleverly installed that they are positioned to save stowage space.
- ✓ **Everything stays in place:** On ERIBA caravans all locker doors, doors and stowage compartments are securely locked by a flush closure system.
- ✓ **All tested:** ERIBA caravans are subjected to extensive safety tests before they go into production. One of the standard tests is the vibration test which simulates up to 1 million kilometres.
- ✓ **Tyres:** European brand tyres with speed index L (up to 120 km/h) and sufficient load-bearing reserves mean safety on the road.
- ✓ **RCCB protection:** The entire electrics are protected by a residual current circuit breaker equivalent to the quality standard of a home.
- ✓ **Safety underway:** The optional stability control system (ATC – Automatic Trailer Control) recognises dangerous snaking movements in advance and initiates controlled braking in a fraction of a second to decelerate the trailer and stabilise the rig.

ERIBA: We want you to get some prime R+R

Recuperation starts with a good sleep. That's why sleeping comfort is top priority, closely followed by living comfort.

Sleep exceptionally well.

- ✓ **Optimised ergonomics:** The lying zones on the multizone cold foam mattresses match the various body zones and provide them with optimal support.
- ✓ **Pleasantly neutral:** The removable and washable drill cover with soft protector is ideal for allergy sufferers.
- ✓ **Solid base:** The ERGO wooden slatted frame offers you the best possible base to enjoy a deep sleep on all ERIBA models.
- ✓ **Inviting:** The bed boxes not only offer maximum stowage space – they are also designed to the optimal bed height.
- ✓ **Sleep long:** The luxury layouts of all model series always have a bed that is at least two metres long.
- ✓ **Healthy comfortable climate:** A clever heating system with well placed back ventilation ensures optimal air circulation and heat distribution.

Generous comfortable seats.

- ✓ **Sits:** Optimal rigidity and hardness of foam cushions combined with soft foam padding guarantee dimensional stability and above all pleasant sitting comfort.
- ✓ **Fits:** Greater seat depth and back height offer you ergonomically shaped seat cushions.
- ✓ **Legroom:** Plenty of room to stretch your legs and to easily enter or exit the seating group thanks to the single column table leg with adjustable table top (depending on model).
- ✓ **No fuss:** All seating groups can be converted into a comfortable bed in a few easy minutes; optional bed cushions offer additional comfort.
- ✓ **Clean:** The upholstery fabrics in your ERIBA caravan are extremely easy to clean – thanks to stain protection and lotus effect.
- ✓ **Ecological:** All upholstery fabrics in your ERIBA have been awarded the international Oeko-Tex® mark.
- ✓ **Well-being in pleasant temperatures:** The Truma heatings provide uniform hot air distribution for a pleasant temperature in your ERIBA caravan and has a remarkably short warm-up phase. Optionally there is underfloor heating – and for winter fans the ALDE hot water heater including hot water underfloor heating.

ERIBA Touring

A legend with cult status

The epitome of individualism: ERIBA Touring caravans have achieved cult status. For over 55 years, the design concept based on the principle of aerodynamic styling offers the ideal home for people who yearn for faraway places. Lightweight construction, compact dimensions and a low overall height by an integrated raised roof are features that are common for Touring caravans. What is legendary are the excellent road-holding characteristics.

ERIBA Touring – Living and sleeping in comfort

A cleverly designed interior in light Merano pear wood and a raised roof offering a standing height of 195 cm. This creates an enormous feeling of spaciousness inside the ERIBA Touring.

ERIBA Touring – Living and sleeping in comfort

01 02

03

“For BBQs and dinners al fresco: On the outside there’s an extra rail for attaching the seating group table.”

Rudolf Wikelski, Product Manager ERIBA Caravans

04

05

- 01 Caravanning means freedom – for your head too. That’s why the seating in the ERIBA Touring offers plenty of headroom besides first-class seating.
- 02 In no time at all: In caravans with single beds, making the beds is child’s play.
- 03 Travelling does not mean missing out on a good night’s sleep – here you sleep and dream on cold foam mattresses with soft drill covers.
- 04 Optimally designed padded backrests mean more seating comfort.
- 05 A cosy place to sleep: The soft, power-saving LED light produces a homely atmosphere.

01

01

02

03

04

- 01 More than practical: The sink cover and chopping board creates additional work space and even large pots fit under the water tap.
- 02 The optional 3-flame hob, which is easy to operate and clean, is ideal for even sophisticated dishes. The glass lid acts as flame protection when folded up.
- 03 Everything at hand at a glance:
The spacious drawer with its cutlery tray keeps everything neat and tidy.
- 04 The side flap acts as a work top extension – together with the sink cover. This results in an enormous work top. In addition the cleverly housed 13 litre tank has enough fresh water for working in the kitchen.
- 05 The washroom is equipped with a height adjustable mirror, a shelf with "elastic straps" to stow away utensils, a towel rail and a Thetford bench toilet.

ERIBA Touring – Standard highlights

Feel good right from the start

Comfort in the ERIBA Touring comes from practical basic equipment levels which are beyond comparison in this class. The typical Touring highlights give the living area an exclusive flair. Feeling good is all inclusive here – experience it for yourself.

The elegant way to save fuel:

ERIBA caravans are models of efficiency – this is due to the aerodynamically shaped front with its rounded edges. The body shape, which is unique in caravan construction, features timeless elegance and conceals numerous benefits:

low air resistance for more fuel economy, much greater driving safety and perfect road-holding. This makes your holiday tour with this compact touring expert safer, more economic – and more elegant.

Practical outside light:

The energy-saving LED awning light with integrated motion detector is also part of the standard equipment. It lights up the outside area around the entrance door to afford safe entry and exit in the dark.

Technology from aircraft construction:

Lightweight and sturdy – the unique construction concept of ERIBA Touring technology ensures long life, fuel economy, safety and excellent road-holding.

Perfect standing height:

The ERIBA raised roof lets you stand up straight in your compact caravan – with a headroom of up to 195 cm. In addition it provides a perfect interior climate by allowing air to circulate through the canvas window in the raised roof.

ERIBA Touring – Standard highlights

Easy to handle:
The jockey wheel is equipped with a pneumatic tyre. This makes it much easier and safer to hitch up or park the caravan.

New!

No snaking:
The new optimised stabiliser with automatic control device (AKS 3004) and auto-reverse mechanism corrects snaking as soon as it occurs and so increases the safety margin.

Safety on the road:
ERIBA caravans have full taillight clusters comprising reversing light, reflectors, side lights, integrated fog lamp and third brake light. They comply with all safety requirements.

More storage space

Occasional bed and additional storage space:
All seating groups can be transformed as quick as a flash into a comfortable bed. The spacious seat boxes provide plenty of storage space which is easy to access.

Full room height!

Plenty of space for long tours:
All the layouts have a generous full height wardrobe with adjustable shelves which easily accommodate all your holiday clothing. So you are well equipped for long journeys.

Smart design

Everything well stowed away:
The all-round overhead storage cupboards with their elegant doors are big enough to house all your travelling utensils and they all stay closed without rattling.

Storage space for your dreams:
All fixed beds open up wide and high quality spring struts keep them safely in position when open. The enormous bed boxes are easily accessible – either from inside the caravan or from the outside through the large exterior locker door on the awning side (optional extra dependent on model).

LED

Pleasant light, low power consumption:
The indirect mood lighting in the overhead storage cupboards lets you create a discrete evening mood in the caravan at the press of a button. Power consumption is very low, thanks to energy-saving LED technology.

ERIBA Touring – Optional extras

Extra comfort on request

Do you want to add a more personal touch of class to your ERIBA caravan? We offer you so many interesting extras to customise your van. This page contains a short extract of the many possibilities. Your HYMER / ERIBA dealer will provide you with the complete list.

Easy access:

The large outside locker door makes it easy to access the stowage compartment in the bed box from the awning side.

Protection from snaking:

The optional stability control system (ATC - Automatic Trailer Control) recognises dangerous snaking movements in advance and initiates controlled braking in a fraction of a second to decelerate the trailer and stabilise the rig.

Arrive without a care – Truma Mover SER/TER:

It makes handling and parking your caravan easy. It handles van weights up to 2,000 kg and inclines up to 13% by remote control with no problem.

Take your seat in the first class:

The luxurious back cushions offer you significantly more seating comfort – they are higher and optimally moulded to your body shape.

Hot water wherever you are:

The energy-saving 1500 W gas boiler (optionally with an 850 W electric heating element) heats water efficiently. The space-saving 10 litre stainless steel tank ensures perfect drinking water quality.

More independence:

The Independent Electrical Packet, comprising a gel battery (80 ampere-hours) in the living area, 13-wire connecting cable and 230 V automatic charger, is a reliable power supply and is independent of external power sources.

Stone impact protection:
The stone impact plate provides protection for off-road fans. It also provides some added flair to the caravan.

Light for reading:
Three additional individually switched reading lights under the overhead storage cupboards – one in the front and two in the rear – provide you with the right light to enjoy your evening read at leisure.

Stowage space as if by magic:
When you open the hatch door in the floor, you have an enormous additional "cellar" at your disposal. It has a capacity of about 40 litres.

Wheel on, wheel off:
The underfloor spare wheel holder at the rear ensures that you always have a full-size spare wheel with you in an emergency – without wasting any precious stowage space.

The right nose weight at all times:
The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the best tow bar weight when travelling.

More than just an entry or exit:
The entrance door becomes a practical furniture item with its stowage pockets and the integrated rubbish bin. The optional insect screen roller blind keeps unwanted guests away.

Turn your ERIBA into a GT:
The GT Packet is a visible and functional upgrade for your ERIBA Caravan: on the one hand, the alloy wheels, the smooth side panels, nose and rear in Crystal Silver and the stone protection plate. On the other hand, there are a total of

three additional reading lights in the front and rear, an exterior stowage compartment locker on the near-side, a rubbish bin integrated in the door, a sliding door with insect screen, chopping board sink cover and two utility pockets.

ERIBA Feeling

The feeling of freedom

Lightweight, manoeuvrable and sporty. Perfect for intense travel experiences, for long tours coupled with a cosy feeling of home. Its compact outer dimensions make it easy to handle, even on the camping site. This model series ideally combines the road-holding benefits of a raised roof van with a spacious living area concept. The unique PUAL technology with its excellent insulation ensures a very pleasant interior climate.

Furnished with fresh modern appointments: The ERIBA Feeling offers a pleasant generous sense of space and a sporty travel feeling anywhere in the world.

ERIBA Feeling – Sleeping in comfort

01 02

03

“The raised roof turns the ERIBA Feeling into a very spacious van!”

Rudi Fimpel, Head of ERIBA Caravan Division

04

05

- 01 Relax in perfect comfort in the ERIBA Feeling 470 – here in Merano pear wood furniture finish – and dream away perfectly relaxed and comfortably on high-quality cold foam mattresses.
- 02 The rolled slatted frame on this ERIBA Feeling 470 offers a very large sleeping surface – more room to sleep on or more sleeping pleasure.
- 03 The rear seating group is quick and easy to convert into a bed.
- 04 The family-friendly elevating roof provides more space and gives you great views for a good night's sleep.
- 05 The cosy rear transverse bed in the ERIBA Feeling 425, with practical reading spots at the bed head.

- 01 Where to put everything? The additional closed stowage options in the washroom provide enough room for your toiletries and accessories.
- 02 The modern Thetford toilet, here in the ERIBA Feeling 425.
- 03 The elastic straps in the open compartments keep everything firmly in place when you are travelling.
- 04 Maximum functionality in the compact washrooms of the ERIBA Feeling.
- 05 There is plenty of space in the smallest kitchenette – cooking with a view in the ERIBA Feeling 230 equipped with everything you need.

05

ERIBA Feeling – Standard highlights

Feel good right from the start

Comfort in the ERIBA Feeling comes from practical basic equipment levels which are beyond comparison in this class. The typical Feeling highlights give the living area an exclusive flair. Feeling good is all-inclusive here – experience it for yourself.

The elegant way to save fuel:

All ERIBA caravans have an aerodynamically shaped front in a rounded body shape. This body shape, which is unique in caravan construction,

reduces air resistance and so permits you to save fuel when you are on tour. At the same time, it gives the caravan a timeless elegance.

Perfect standing height:

The ERIBA raised roof lets you stand up straight in your compact caravan – with a headroom of up to 198 cm. In addition it provides a perfect interior climate by allowing air to circulate through the canvas window in the raised roof.

Greater driving safety:

The extra long V-shaped drawbar of the AL-KO chassis and its semi-trailing link axle with independent suspension ensure optimal road-holding and extremely high driving stability. This means maximum safety on your travels.

Easy to handle:

The jockey wheel is equipped with a pneumatic tyre. This makes it much easier and safer to hitch up or park the caravan.

Firmly in control:

The sturdy grab handles on the front (A) and the continuous grab handle at the rear (B) offer a safe hold when you are manoeuvring the caravan. The rear handle runs along the entire width of the caravan so that several helpers can all pull together.

High load-bearing capacity:
The extra long drawbar not only offers space for a drawbar carrier, it also has enough load-bearing capacity due to its nose weight of 100 kg.

Safe braking:
The built-in AL-KO safety braking system ensures continuous braking action for strong and safe braking.

Large gas bottle locker:
The lockable nose stowage compartment can be easily reached through a wide opening hatch fitted with a gas pressure strut. Besides two 11 kg gas bottles the compartment also has room for a spare wheel, an optional 22 litre waste water tank and the vehicle ramps.

Very high payload:
The very sturdy fully galvanised AL-KO lightweight construction chassis and low maximum approved mass give ERIBA caravans a very high load-bearing capacity. Payloads up to 480 kg are possible depending on the model and equipment level.

The ERIBA patent:
An awning rail is integrated in the side panel to thread in the awning piping. This makes it much easier, safer and faster to set up the awning.

Gapless insulation:
The roof and all side walls are made from continuous 30 mm thick PUAL sandwich panels which boast excellent insulation and avoid any cold bridges. The interior is fully insulated, even the gas bottle locker in the nose.

Protected installation:
All hot air ducts, water pipes and the entire on-board electrics are housed inside the vehicle to protect them from freezing. Thanks to the space-saving installation, the existing stowage space can be optimally used.

Perfect multiple protection:
The tinted windows with double acrylic glazing not only provide light protection and thermal insulation. They are fitted as standard with insect screens and blackout roller blinds and safety locks (A) with vent position catches.

Stowage space for your dreams:
All fixed beds open up wide and high quality spring struts keep them safely in position when open. The enormous bed boxes are easily accessible – either from inside the caravan or from the outside through the large exterior locker door.

ERIBA Feeling – Optional extras

Extra comfort on request

Do you want to add a more personal touch of class to your ERIBA caravan? We offer you so many interesting extras to customise your van. This page contains a short extract of the many possibilities. Your HYMER / ERIBA dealer will provide you with the complete list.

More stability on any ground:
The galvanised corner steadies provide ERIBA caravans with a stable stand and stability on any terrain. You can increase stability even more by fitting Big Foot steadies.

No snaking:
The new optimised stabiliser with automatic control device (AKS 3004) and auto-reverse mechanism corrects snaking as soon as it occurs and so increases the safety margin.

Protection from snaking:
The optional stability control system (ATC - Automatic Trailer Control) recognises dangerous snaking movements in advance and initiates controlled braking in a fraction of a second to decelerate the trailer and stabilise the rig.

The smart manoeuvring system for caravans:
The AL-KO AMS MAMMUT manoeuvring system lets you park your caravan with precision, over sticks and stones, or on a steep incline, even when there is no one else around to help.

The right nose weight at all times:
The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the best tow bar weight when travelling.

Towbar bicycle rack:
The Thule bicycle rack provides security when carrying bicycles on the drawbar. The rack folds back to provide access to the nose storage compartment.

More independence:

The Independent Electrical Packet, comprising a gel battery (80 ampere-hours) in the living area, 13-wire connecting cable and 230 V automatic charger, is a reliable power supply and is independent of external power sources.

Dynamic looks:

The dynamic stickers in Sierra grey metallic give your ERIBA a special sporty appearance.

Ready wired for radio and TV:

The multimedia packet is an additional comfort feature and includes a 19" TFT screen (including holder), a radio and DVD player, two or four loudspeakers (depending on the model) and the wiring to match.

Sleeping with a view:

The large panorama skylight (140 x 44 cm) above the rear beds floods the interior with daylight and provides unrestricted view of the stars at night. Like its counterpart in the living area the skylight is fitted with heat insulated double glazing and a pleated blackout blind.

Easy access:

The large outside locker door makes it easy to access the stowage compartment in the bed box from the awning side.

Take your seat in the first class:

The luxurious back cushions offer you significantly more seating comfort – they are higher and optimally moulded to your body shape.

Sleep on top:

The ERIBA elevating roof brings you closer to the stars. It offers an additional sleeping area – without having to convert a seating group – and also gives you a fantastic view.

ERIBA Exciting

Sporty family pleasure

With its chic design and attractive colour scheme, the ERIBA Exciting will enthrall young caravanners and those who are still young at heart. The ERIBA Exciting, with its anthracite design stickers, radiates discreet, subdued and dynamic superiority. A joy for the whole family. Exceptionally child-friendly: the bunk berths.

ERIBA Exciting – Living and sleeping in comfort

Enjoying Sunday breakfast or a board game:
The table in the ERIBA Exciting is the ideal central
point of the holiday; the sturdy single-column
table leg offer bags of legroom.

ERIBA Exciting – Living and sleeping in comfort

01 02

03

“Even large families will find their dream caravan with the 3 bunk berths.”

Marcel Bones, Sales for ERIBA Caravans

04

05

- 01 The interior is exquisitely appointed in Kalmar fabric design and the bright and friendly Umbria Select furniture finish.
- 02 Bags of space and plenty of seats: This ERIBA Exciting 550 is pure family friendliness on wheels.
- 03 The kids can sleep in comfortable bunk berths – a really thrilling travel experience for many children.
- 04 The ERIBA Exciting 560 offers enough play space for toddlers and plenty of stowage space, thanks to the large garage locker door.
- 05 The ERIBA Exciting 585 has a generous feeling of space. A special feature: the rear washroom and the extra large kitchenette in the front.

01

02

03

- 01 The washroom in the ERIBA Exciting 560 is just right for families – for example the standard towel rail makes the bathroom neat and tidy in no time at all.
- 02 The raised refrigerator in the practical equipped kitchenette of the ERIBA Exciting 535 stores plenty of enough food to supply your expedition.
- 03 Everything you need – in a compact space which still gives you the feeling of spaciousness, thanks to the Umbria Select furniture finish.
- 04 Cook just like at home: The hob has a sturdy cast iron grate and can be supplemented by a high-quality Spinflo Duplex oven (see page 55); the kitchen drawers are fitted with Servo soft touch closing.

ERIBA Exciting – Standard highlights

Feel good right from the start

Comfort in the ERIBA Exciting comes from practical basic equipment levels which are beyond comparison in this class. Numerous exquisite features give the living area an exclusive flair. Feeling good is all-inclusive here – experience it for yourself.

Modern exterior design:

Your ERIBA caravan is painted a bright white – classic, modern and neutral all at the same time. It compliments your tow car to produce a stylish rig. Under the attractive exterior design lies highly

modern and sturdy caravan body technology in sandwich construction comprising aluminium sheet and a highly insulating polystyrene core; the hail-proof outer roof skin is made of fibreglass reinforced plastic.

Easy access:

The large outside locker door makes it easy to access the stowage compartment in the bed box from the awning side.

Perfect multiple protection:

The tinted windows with double acrylic glazing not only provide light protection and thermal insulation. They are fitted as standard with insect screens and blackout roller blinds and safety locks (A) with vent position catches.

Keeping dry:

The towel rail puts an end to wet towels lying around. It offers space for many towels to keep everything neat and tidy.

Back-ventilated to prevent condensation:

All overhead storage cupboards have a ventilation gap behind the rear panel so that warm air can circulate without hindrance. This avoids strong temperature differences in the interior and prevents unwanted condensation from forming.

Very high payload:

The very sturdy fully galvanised AL-KO light-weight construction chassis and low maximum approved mass give ERIBA caravans a very high load-bearing capacity. Payloads up to 550 kg are possible depending on the model and equipment level.

High load-bearing capacity:

The extra long drawbar not only offers space for a drawbar carrier, it also has enough load-bearing capacity due to its nose weight of 100 kg.

No snaking:

The new optimised stabiliser with automatic control device (AKS 3004) and auto-reverse mechanism corrects snaking as soon as it occurs and so increases the safety margin.

Safe braking:

The built-in AL-KO safety braking system ensures continuous braking action for strong and safe braking.

Gas bottle access:

The small service opening helps to open and close the gas bottles. Even if a wheel holder is fitted on the towbar, the bicycles need not be removed to operate the gas bottles.

Protected installation:

All hot air ducts, water pipes and the entire on-board electrics are housed inside the vehicle to protect them from freezing. Thanks to the space-saving installation, the existing stowage space can be optimally used.

Stowage space for your dreams:

All fixed beds open up wide and high quality spring struts keep them safely in position when open. The enormous bed boxes are easily accessible – either from inside the caravan or from the outside through the large exterior locker door.

Versatile fridge to keep things fresh:

The refrigerator with integrated freezer compartment and adjustable shelves runs on either 12 V, 230 V or gas. The refrigerator door is lockable at the press of a button, even in ventilation position.

Brightness by day and by night:

The large panorama roof vents in the living area let in plenty of direct daylight to create pleasant natural light conditions. In the dark the integrated LED spots provide uniform lighting. The parallelogram rails allow you to ventilate the interior even in bad weather.

ERIBA Exciting – Optional extras

Extra comfort on request

Do you want to add a more personal touch of class to your ERIBA caravan? We offer you so many interesting extras to customise your van. This page contains a short extract of the many possibilities. Your HYMER / ERIBA dealer will provide you with the complete list.

More stability on any ground:
The galvanised corner steadies provide ERIBA caravans with a stable stand and stability on any terrain. You can increase stability even more by fitting Big Foot steadies.

Protection from snaking:
The optional stability control system (ATC – Automatic Trailer Control) recognises dangerous snaking movements in advance and initiates controlled braking in a fraction of a second to decelerate the trailer and stabilise the rig.

Arrive without a care – Truma Mover SER/TER:
It makes handling and parking your caravan easy. It handles van weights up to 2,000 kg and inclines up to 13% by remote control with no problem.

The right nose weight at all times:
The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the best tow bar weight when travelling.

Warm in winter:
The Arctic Packet optimises your ERIBA caravan for winter expeditions. An ALDE hot water heater ensures pleasant temperatures. There is even an underfloor warm water heater.

Polystyrene insulation there and a double floor under the seating group and bed keep the cold outside. The waste water system has a 44 litre tank and is fitted inside to protect it from freezing.

More than just an entry or exit:
The entrance door becomes a furniture item due to the large clothing hooks. The optional insect screen roller blind keeps unwanted guests away.

More room to sleep:
In a few easy movements, the folding bed opens up to provide an additional sleeping option above the seating group.

Sleeping place for three young travellers:
The triple bunk berths make the best use of the existing space for more sleeping accommodation – and there's still enough room to move during the day. Ideal for a family of five to enjoy a relaxing holiday.

Lying on a large comfortable bed:
The optional rolled slatted frame for a larger sleeping area offers more space to sleep and more comfort.

Sleep on top:
The ERIBA elevating roof brings you closer to the stars. It offers an additional sleeping area – without having to convert a seating group – and also gives you a fantastic view.

Pleasant light, low power consumption:
The indirect mood lighting above the seating group lets you create a discrete evening mood in the caravan at the press of a button. Consumption remains very low thanks to the energy-saving LED light tube.

Cooks as good as it looks:
The Spinflo Duplex is a high-quality oven-grill combination. It is equipped with a double burner (one for the oven, one for the grill), it is easy to operate and has a unique design. You can cook meals just like at home.

ERIBA Nova Light

Comfort in a compact unit

How much holiday comfort can a compact class caravan offer? The ERIBA Nova Light gives you a totally new answer. With a body length of only about five metres, it comfortably accommodates four – with bags of space to move and the luxury equipment and quality level of an ERIBA Nova.

The living comfort is first class, spaciousness is amazing and the outer dimensions are compact – but you decide on where to “locate” this mobile apartment.

ERIBA Nova Light – Living and sleeping in comfort

01 02

03

“The compact outer dimensions make the ERIBA Nova Light into the ideal mobile home for entry-level caravanners.”

Bernhard Sawetzki, Technical Director of Series Production

04

05

- 01 Relaxed view: Enjoy the high seating comfort and free view through the large window of the spacious half seating group in the Nova Light 425.
- 02 Easy to convert: All seat cushions are shaped to allow sleeping and when required, they convert in no time into comfortable beds, here in the Nova Light 425.
- 03 Excellent sleeping comfort: Like all fixed beds, the longitudinal single beds in the Nova Light 470 are fitted with Ergo wooden slatted frames.
- 04 The outer dimensions of the ERIBA Nova Light 465 are compact – but inside, everything is spacious, such as the double bed here.
- 05 Plenty of space up and down: The rear transverse bed in the Nova Light 425 conceals an enormous stowage compartment under the spacious, comfortable sleeping area.

01

04

02

03

05

- 01 Kitchenette with a view:
The cooking area offers everything you need to perform great culinary art.
- 02 Everything at hand: Plenty of stowage space for kitchen utensils and equipment.
The drawers are fitted with practical closing mechanism.
- 03 Functionality down to the smallest detail.
The corner strip on the work top prevents moisture from seeping behind the kitchenette.
- 04 The refrigerator in the ERIBA Nova Light 465 has plenty of capacity with 60 litres
(80 litres: optional extra).
- 05 All the important items in a compact space on the ERIBA Nova Light 425:
sink, 3-hob cooker, refrigerator and practical stowage space. The work top extends
to the front to provide enough space to work on, even when the hob lid is open.

ERIBA Nova Light – Standard highlights

Feel good right from the start

Comfort in the ERIBA Nova Light comes from practical basic equipment levels which are beyond comparison in this class. The typical Nova Light highlights give the living area an exclusive flair. Feeling good is all-inclusive here – experience it for yourself.

The elegant way to save fuel:

All ERIBA caravans have an aerodynamically shaped front in a rounded body shape. This body shape, which is unique in caravan construction,

reduces air resistance and so permits you to save fuel when you are on tour. At the same time, it gives the caravan a timeless elegance.

Gapless insulation:

The roof and all side walls are made from continuous 30 mm thick PUAL sandwich panels which boast excellent insulation and avoid any cold bridges. The interior is fully insulated, even the gas bottle locker in the nose.

Firmly in control:

The sturdy grab handles on the front (A) and the continuous grab handle at the rear (B) offer a safe hold when you are manoeuvring the caravan. The rear handle runs along the entire width of the caravan so that several helpers can all pull together.

Easy to handle:

The jockey wheel is equipped with a pneumatic tyre. This makes it much easier and safer to hitch up or park the caravan.

Greater driving safety:

The extra long V-shaped drawbar of the AL-KO chassis and its semi-trailing link axle with independent suspension ensure optimal road-holding and extremely high driving stability. This means maximum safety on your travels.

Safe braking:
The built-in AL-KO safety braking system ensures continuous braking action for strong and safe braking.

Very high payload:
The very sturdy fully galvanised AL-KO lightweight construction chassis and low maximum approved mass give ERIBA caravans a very high load-bearing capacity. Payloads up to 435 kg are possible depending on the model and equipment level.

100 kg load-bearing capacity

High load-bearing capacity:
The extra long drawbar not only offers space for a drawbar carrier, it also has enough load-bearing capacity due to its nose weight of 100 kg.

The ERIBA patent:
An awning rail is integrated in the side panel to thread in the awning piping. This makes it much easier, safer and faster to set up the awning.

2 x 11 kg

Large gas bottle locker:
The lockable nose stowage compartment can be easily reached through a wide opening hatch fitted with a gas pressure strut. Besides two 11 kg gas bottles the compartment also has room for a spare wheel, an optional 22 litre waste water tank and the vehicle ramps.

Protected installation:
All hot air ducts, water pipes and the entire on-board electrics are housed inside the vehicle to protect them from freezing. Thanks to the space-saving installation, the existing stowage space can be optimally used.

Insulated
A

Perfect multiple protection:
The tinted windows with double acrylic glazing not only provide light protection and thermal insulation. They are fitted as standard with insect screens and blackout roller blinds and safety locks (A) with vent position catches.

Stowage space for your dreams:
All fixed beds open up wide and high quality spring struts keep them safely in position when open. The enormous bed boxes are easily accessible – either from inside the caravan or from the outside through the large exterior locker door.

ERIBA Nova Light – Optional extras

Extra comfort on request

Do you want to add a more personal touch of class to your ERIBA caravan? We offer you so many interesting extras to customise your van. This page contains a short extract of the many possibilities. Your HYMER / ERIBA dealer will provide you with the complete list.

Dynamic looks:

The dynamic stickers in Sierra grey metallic give your ERIBA a special sporty appearance.

More stability on any ground:

The galvanised corner steadies provide ERIBA caravans with a stable stand and stability on any terrain. You can increase stability even more by fitting Big Foot steadies.

No snaking:

The new optimised stabiliser with automatic control device (AKS 3004) and auto-reverse mechanism corrects snaking as soon as it occurs and so increases the safety margin.

Protection from snaking:

The optional stability control system (ATC – Automatic Trailer Control) recognises dangerous snaking movements in advance and initiates controlled braking in a fraction of a second to decelerate the trailer and stabilise the rig.

The smart manoeuvring system for caravans:

The AL-KO AMS MAMMUT manoeuvring system lets you park your caravan with precision, over sticks and stones, or on a steep incline, even when there is no one else around to help.

The right nose weight at all times:

The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the best tow bar weight when travelling.

More independence:

The Independent Electrical Packet, comprising a gel battery (80 ampere-hours) in the living area, 13-wire connecting cable and 230 V automatic charger, is a reliable power supply and is independent of external power sources.

Towbar bicycle rack:

The Thule bicycle rack provides security when carrying bicycles on the drawbar. The rack folds back to provide access to the nose storage compartment.

Transporting items on the roof safely:

The robust roof rails with integrated rear ladder provide easy access to the useful roof area. Large equipment for water and winter sports can be easily and safely lashed down here.

Omnistor 6200 awning:

The lightweight, elegant joint awnings offer optimal protection against sun and rain. The space-saving awning is adapted to the rounded shape of the roof without making the caravan any wider.

Brightness by day and by night:

The large panorama roof vents in the living area let in plenty of direct daylight to create pleasant natural light conditions. In the dark the integrated LED spots provide uniform lighting. The parallelogram rails allow you to ventilate the interior even in bad weather.

Sleeping with a view:

The large panorama skylight (140 x 44 cm) above the rear beds floods the interior with daylight and provides unrestricted view of the stars at night. Like its counterpart in the living area the skylight is fitted with heat insulated double glazing and a pleated blackout blind.

Take your seat in the first class:

The luxurious back cushions offer you significantly more seating comfort – they are higher and optimally moulded to your body shape.

Ready wired for radio and TV:

The multimedia packet is an additional comfort feature and includes a 19" TFT screen (including holder), a radio and DVD player, two or four loudspeakers (depending on the model) and the wiring to match.

Pleasant light, low power consumption:

The indirect mood lighting in the overhead storage cupboards lets you create a discrete evening mood in the caravan at the press of a button. Power consumption is very low, thanks to low-energy LED technology.

ERIBA Nova / ERIBA Nova LuxusLine

Trendsetter in the premium class

The ERIBA Nova in its most perfected dynamic form. The unique superior design with the appealing round outer shape radiates elegance. Appealing and functional – the taillight cluster and the continuous grab handle. At the front the hinged shaped windows are adapted to the flowing contours.

High-class ambience, generous comfort and luxurious appointments – the ERIBA Nova LuxusLine is your 5-star hotel room on the road.

01

02

03

- 01 Entertainment at the right place:
Adjust your flat screen in the best position for top entertainment.
- 02 The light-coloured furniture finish in Trentino pear wood, the high-class Nova LuxusLine fabric design and the exclusive lighting give your van a luxurious and spacious interior.
- 03 The seating group surrounded by three windows offers ample room and the pleasant seating comfort of the back upholstery moulds to your body shape.
- 04 The removable drill covers conceal high-quality cold foam mattresses which provide you the sleeping comfort just of home.

ERIBA Nova – Living and sleeping in comfort

01 02

03

“The ERIBA Nova offers everything you need when you’re on the road – and it’s still incredibly spacious.”

Sylvia Menailiuk, Fabrics Development

04

05

- 01 The rolled slatted frame – here in the ERIBA Nova 540 – enlarges the sleeping area in a few easy steps.
- 02 It’s very quick and easy to make your bed: Assembling the bed is so ingenious and fast – and the furniture finish in Merano pear wood provides a pleasant decor.
- 03 The spacious and functional shoe cupboard in the ERIBA Nova 540 is just right for tidying away your shoes at the entrance door.
- 04 Large table with plenty of legroom: The table top is adjustable and mounted on a sturdy column. It is within easy reach of the rear seats in the seating group – the Nova 540 here is in Castello fabric design.
- 05 The wardrobe with split door in this ERIBA Nova 531 has an additional drawer which is ideal for drying damp clothes due to the perforated metal floor.

01

02

03

- 01 The generously roomy cupboard comes either with closed or open shelves – the open shelf version is fitted with guard rails.
- 02 Large mirror and shelves make the washroom in the ERIBA Nova into a generous and functional spa.
- 03 The luxury corner washstand in the Eriba Nova LuxusLine 465 shines with its countersunk round basin and spacious undercupboard in Trentino pear wood furniture finish.
- 04 The top-quality furniture finish, the loving attention to details and the wooden slatted floor insert in the shower create a luxurious and expansive feeling of space.

01

02

03

04

05

- 01 Small detail with great effect:
A spice rack with spot and mirror in the ERIBA Nova LuxusLine 465.
- 02 Well concealed but still effective: The extractor fan for well-ventilated cooking – even when you prepare sophisticated menus.
- 03 The granite style dinette work top in the ERIBA Nova 495 is extendable by covering the sink – and by lowering the split hob lid.
- 04 Classic and elegant high-gloss locker doors and effective slide guards prevent crockery from travelling by itself when you're driving.
- 05 Large drawers with cutlery trays and the popular pharmacist's pullout drawer offer plenty of easily accessible stowage space.
- 06 The gourmet centre in the ERIBA Nova 465 – a caravanner's pleasure.

ERIBA Nova / ERIBA Nova LuxusLine – Standard highlights

Feel good right from the start

Comfort in the ERIBA Nova/ERIBA Nova LuxusLine comes from practical basic equipment levels which are beyond comparison in this class. Numerous exquisite features give the living area an exclusive flair. Feeling good is all-inclusive here – experience it for yourself.

The elegant way to save fuel:

All ERIBA caravans have an aerodynamically shaped front in a rounded body shape. This body shape, which is unique in caravan construction, reduces air resistance and

so permits you to save fuel when you are on tour. At the same time, the caravan's appearance has a timeless elegance.

Gapless insulation:

The roof and all side walls are made from continuous 30 mm thick PUAL sandwich panels which boast excellent insulation and avoid any cold bridges. The interior is fully insulated, even the gas bottle locker in the nose.

Perfect multiple protection:

The tinted windows with double acrylic glazing not only provide light protection and thermal insulation. They are fitted as standard with insect screens and blackout roller blinds and safety locks (A) with vent position catches.

Greater driving safety:

The extra long V-shaped drawbar of the AL-KO chassis and its semi-trailing link axle with independent suspension ensure optimal road-holding and extremely high driving stability. This means maximum safety on your travels.

Large gas bottle locker:

The lockable nose stowage compartment can be easily reached through a wide opening hatch fitted with a gas pressure strut. Besides two 11 kg gas bottles the compartment also has room for a spare wheel, an optional 22 litre waste water tank and the vehicle ramps.

ERIBA Nova/ ERIBA Nova LuxusLine – Highlights from series production

The ERIBA patent:

An awning rail is integrated in the side panel to thread in the awning piping. This makes it much easier, safer and faster to set up the awning.

Two doors are better than one:

Stow away your clothes behind a split door – it needs less space to open. There is also a drawer – and the pleasant side effect that warmth from the heating system acts like a dryer.

High load-bearing capacity:

The extra long drawbar not only offers space for a drawbar carrier, it also has enough load-bearing capacity due to its nose weight of 100 kg.

Back-ventilated to prevent condensation:

All overhead storage cupboards have a ventilation gap behind the rear panel so that warm air can circulate without hindrance. This avoids strong temperature differences in the interior and prevents unwanted condensation from forming.

Protected installation:

All hot air ducts, water pipes and the entire on-board electrics are housed inside the vehicle to protect them from freezing. Thanks to the space-saving installation, the existing stowage space can be optimally used.

Pleasantly warm everywhere:

The maintenance free Truma S 3004/ 5004 heater with automatic ignition provides pleasant warmth – even when the weather outside is freezing cold. The tried and tested system is highly efficient and reliable – and is now even easier to operate.

Stowage space for your dreams:

All fixed beds open up wide and high quality spring struts keep them safely in position when open. The enormous bed boxes are easily accessible – either from inside the caravan or from the outside through the large exterior locker door.

Firmly in control:

The sturdy grab handles on the front (A) and the continuous grab handle at the rear (B) offer a safe hold when you are manoeuvring the caravan. The rear handle runs along the entire width of the caravan so that several helpers can all pull together.

Versatile fridge to keep things fresh:

The refrigerator with integrated freezer compartment and adjustable shelves runs on either 12 V, 230 V or gas. The refrigerator door is lockable at the press of a button, even in ventilation position.

ERIBA Nova / ERIBA Nova LuxusLine – Optional extras

Extra comfort on request

Do you want to add a more personal touch of class to your ERIBA caravan? We offer you so many interesting extras to customise your van. This page contains a short extract of the many possibilities. Your HYMER / ERIBA dealer will provide you with the complete list.

More stability on any ground:
The galvanized corner steadies provide ERIBA caravans with a stable stand and stability on any terrain. You can increase stability even more by fitting Big Foot steadies.

Protection from snaking:
The optional stability control system (ATC - Automatic Trailer Control) recognises dangerous snaking movements in advance and initiates controlled braking in a fraction of a second to decelerate the trailer and stabilise the rig.

Arrive without a care – Truma Mover SER/TER:
It makes handling and parking your caravan easy. It handles van weights up to 2,000 kg and inclines up to 13% by remote control with no problem.

Brightness by day and by night:
The large panorama roof vents in the living area let in plenty of direct daylight to create pleasant natural light conditions. In the dark the integrated LED spots provide uniform lighting. The parallelogram rails allow you to ventilate the interior even in bad weather.

Omnistor 6200 awning:
The lightweight, elegant joint awnings offer optimal protection against sun and rain. The space-saving awning is adapted to the rounded shape of the roof without making the caravan any wider.

Ready wired for radio and TV:
The multimedia packet is an additional comfort feature and includes a 19" TFT screen (including holder), a radio and DVD player, two or four loudspeakers (depending on the model) and the wiring to match.

ERIBA Nova / ERIBA Nova LuxusLine – Optional extras

Transporting items on the roof safely:

The robust roof rails with integrated rear ladder provide easy access to the useful roof area. Large equipment for water and winter sports can be easily and safely lashed down here.

Towbar bicycle rack:

The Thule bicycle rack provides security when carrying bicycles on the drawbar. The rack folds back to provide access to the nose storage compartment.

Convenient satellite reception:

The 65 or 85 Oyster® satellite dishes provide you with TV and radio reception throughout Europe, North Africa and the Middle East. The dishes have large bad weather reception reserves and close when not in use – like an oyster.

Warm during the cold season:

The ERIBA Nova/ERIBA Nova S are really made for winter due to PUAL body technology. This is supplemented by Arctic equipment such as ALDE hot water heating,

underfloor heating, insulated waste water pipes, winter cover etc. The ERIBA Nova/ERIBA Nova S is the ideal winter caravan even in extreme temperatures.

The right nose weight at all times:

The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the best tow bar weight when travelling.

More independence:

The Independent Electrical Packet, comprising a gel battery (80 ampere-hours) in the living area, 13-wire connecting cable and 230 V automatic charger, is a reliable power supply and is independent of external power sources.

Sleeping with a view:

The large panorama skylight (140 x 44 cm) above the rear beds floods the interior with daylight and provides unrestricted view of the stars at night. Like its counterpart in the living area the skylight is fitted with heat insulated double glazing and a pleated blackout blind.

The best climate under any conditions:

The Dometic FreshJet is the most compact and lightweight climate control system of its class. It ensures that air is well distributed thanks to its four air outlets. Take control of the high-performance and low-noise roof climate control system with dimmable LED lighting using a remote control.

ERIBA Nova S

Pure luxury

Perfect appearance. The exterior Carrara white body colour emphasises the high class of the ERIBA Nova S. Rounded forms using the PUAL construction method connect the roof and side panels – a sign of advanced technology. These are special features in the absolute top class.

ERIBA Nova S – Living and sleeping in comfort

From modern design to the smallest equipment detail:
The ERIBA Nova S is the epitome of caravan construction
and fulfils every desire a caravanner may have.

ERIBA Nova S – Living and sleeping in comfort

01 02

03

“From the very start, it was our aim to also reproduce the technical perfection of the ERIBA Nova S in its design.”

Frank Venter, Head of Design

04

05

- 01 The sideboard is only one of many ingenious details which are highly functional as well as attractive in design – here the Pebble leather trim in the Nova 690 S.
- 02 Mobile lounge in Himalaya fabric design: Here is where you and your guests can sit in comfort round the table which is adjustable, sturdy and offers plenty of legroom thanks to its single column.
- 03 Adjust the movable wall holder to position the high-quality flat screen TV at the right angle to enjoy optimum entertainment.
- 04 The double bed in the Nova 545 S offers top sleeping comfort with its first-class cold foam mattress and drill cover.
- 05 The roof high front window turns the ERIBA Nova S into a conservatory flooded in light – or into a romantic planetarium to gaze at the stars – here the Laviana fabric design in the Nova 545 S.

01

02

03

- 01 The exquisite washbasin meets the highest demands for exclusive design. The clever mirror is angled to give you a side view as well – here in the Nova 690 S.
- 02 The shower with optional luxury equipment is an absolute highlight in this ERIBA Nova S 690.
- 03 More luxury in a washroom is well nigh impossible: Elegant design, high-quality materials, clever stowage options and top functionality.
- 04 The ERIBA Nova S 690, here in Noce Torino furniture finish, ensures maximum kitchen comfort with classic and elegant fronts: Servo Soft Close drawers, large cutlery tray, pharmacist's pullout drawer, spice rack; the work top is lit by halogen spots.

ERIBA Nova S – Standard highlights

Feel good right from the start

Extra comfort in the ERIBA Nova S comes from practical basic equipment levels which are beyond comparison in this class. Numerous exquisite features give the living area an exclusive flair. Feeling good is all-inclusive here – experience it for yourself.

Efficient

The elegant way to save fuel:

All ERIBA caravans have an aerodynamically shaped front in a rounded body shape. This body shape, which is unique in caravan construction, reduces air resistance and

so permits you to save fuel when you are on tour. At the same time, the caravan's appearance has a timeless elegance.

LED

Pleasant light, low power consumption:

The indirect mood lighting in the overhead storage cupboards lets you create a discrete evening mood in the caravan at the press of a button. Power consumption is very low, thanks to low-energy LED technology

Gapless insulation:

The roof and all side walls are made from continuous 30 mm thick PUAL sandwich panels which boast excellent insulation and avoid any cold bridges. The interior is fully insulated, even the gas bottle locker in the nose.

2 x
11 kg

Large gas bottle locker:

The lockable nose stowage compartment can be easily reached through a wide opening hatch fitted with a gas pressure strut. Besides two 11 kg gas bottles the compartment also has room for a spare wheel, an optional 22 litre waste water tank and the vehicle ramps.

More than just an entrance and exit:

The entrance door becomes a furniture item due to the large clothing hooks. The optional insect screen roller blind keeps unwanted guests away.

The ERIBA patent:
An awning rail is integrated in the side panel to thread in the awning piping. This makes it much easier, safer and faster to set up the awning.

Greater driving safety:
The extra long V-shaped drawbar of the AL-KO chassis and its semi-trailing link axle with independent suspension ensure optimal road-holding and extremely high driving stability. This means maximum safety on your travels.

Back-ventilated to prevent condensation:
All overhead storage cupboards have a ventilation gap behind the rear panel so that warm air can circulate without hindrance. This avoids strong temperature differences in the interior and prevents unwanted condensation from forming.

Safe braking:
The built-in AL-KO safety braking system ensures continuous braking action for strong and safe braking.

Truma 6000 W combination heater:
This heater is extremely lightweight and compact. It has unmatched low power consumption and FrostControl as standard. Warm air flows through four outlets and water heats up very quickly.

High tech in the kitchen:
The full-height TEC Tower is the ultimate in modern kitchen equipment. It comprises a fridge-freezer combination (160 litres), oven and grill in timeless elegant design and is a convincing kitchen appliance, both from its appearance as well as its versatile performance.

Stowage space for your dreams:
All fixed beds open up wide and high quality spring struts keep them safely in position when open. The enormous bed boxes are easily accessible – either from inside the caravan or from the outside through the large exterior locker door.

Brightness by day and by night:
The large panorama roof vents in the living area let in plenty of direct daylight to create pleasant natural light conditions. In the dark the integrated LED spots provide uniform lighting. The parallelogram rails allow you to ventilate the interior even in bad weather.

ERIBA Nova S – Optional extras

Extra comfort on request

Do you want to add a more personal touch of class to your ERIBA caravan? We offer you so many interesting extras to customise your van. This page contains a short extract of the many possibilities. Your HYMER / ERIBA dealer will provide you with the complete list.

Protection from snaking:

The optional stability control system (ATC - Automatic Trailer Control) recognises dangerous snaking movements in advance and initiates controlled braking in a fraction of a second to decelerate the trailer and stabilise the rig.

Arrive without a care – Truma Mover SER/TER:

It makes handling and parking your caravan easy. It handles van weights up to 2,000 kg and inclines up to 13% by remote control with no problem.

Omnistor 6200 awning:

The lightweight, elegant joint awnings offer optimal protection against sun and rain. The space-saving awning is adapted to the rounded shape of the roof without making the caravan any wider.

Ready wired for radio and TV:

The multimedia packet is an additional comfort feature and includes a 19" TFT screen (including holder), a radio and DVD player, two or four loudspeakers (depending on the model) and the wiring to match.

Transporting items on the roof safely:

The robust roof rails with integrated rear ladder provide easy access to the useful roof area. Large equipment for water and winter sports can be easily and safely lashed down here.

The right nose weight at all times:

The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the best tow bar weight when travelling.

Make an extension to your caravan!

Together with awning specialists "Isabella", we designed the "ERIBA Nova S" awning especially for your ERIBA Nova S. It is very easy to fit and comes equipped as standard with the lightweight CarbonX frame. The front and side panels are removable and/or foldable to form

a veranda. A matching awning carpet, 2 storm protectors and a HerculesTwin frame stretcher are also standard equipment. This is the kind of top equipment level you are used to from your Nova S. The awning measures 300 cm deep.

The best climate under any conditions:

The Dometic FreshJet is the most compact and lightweight climate control system of its class. It ensures that air is well distributed thanks to its four air outlets. Take control of the high-performance and low-noise roof climate control system with dimmable LED lighting using a remote control.

Romantic vistas:

From dinner by starlight to breakfast with the rising sun – the optional panorama front window above the seating group gives you unique holiday vistas – guaranteed.

More independence:

The Independent Electrical Packet, comprising a gel battery (80 ampere-hours) in the living area, 13-wire connecting cable and 230 V automatic charger, is a reliable power supply and is independent of external power sources.

Spot-on support:

The ERIBA comfort sleeping system with high-quality cup spring slatted frames brings out all the qualities of the multizone cold foam mattresses. Every part of your body is supported spot-on with the right counterpressure – for a refreshing, relaxing sleep.

Towbar bicycle rack:

The Thule bicycle rack provides security when carrying bicycles on the drawbar. The rack folds back to provide access to the nose storage compartment.

Warm during the cold season:

The ERIBA Nova/ERIBA Nova S are really made for winter due to PUAL body technology. This is supplemented by Arctic equipment such as ALDE hot water heating,

underfloor heating, insulated waste water pipes, winter cover etc. The ERIBA Nova/ERIBA Nova S is the ideal winter caravan even in extreme temperatures.

Community and service

The entire world of touring travel

Try a touring holiday on impulse?
That's no problem! Many ERIBA dealers also rent caravans.
Find your nearest dealer at www.eriba.com.

Do you fancy testing a caravan?
We award lucky draws for one-week stays including adventure programme in co-operation with the Gitzenweiler Hof camping park in Lindau on Lake Constance. You'll find all the information at www.eriba.com or www.gitzenweiler-hof.de.

You love touring with your ERIBA caravan – that goes without saying. Do you also like surfing on the internet or on social networks?
Then become a member of our HYMER Fan Club on Facebook: www.facebook.com/HYMERAG. You'll also find us on Youtube: www.youtube.com/dieHYMERAG

Internationale Bodensee Tourismus GmbH/Achim Meide

The four-country region of Lake Constance is our adventure country.
Just browse on the web to find out what dream travel destinations we have thought up for you.

You are cordially invited to experience the history of motorhomes in the HYMER home town of Bad Waldsee.

HYMER is the epitome of premium motorhomes and caravans and is also market leader in Europe. The pillars of the company are the four divisions HYMER Motorhomes, ERIBA Caravans, HYMER Original Parts and Accessories and HYMERCAR. HYMER currently employs over 1000 workers at the Bad Waldsee location. HYMER's success story started a good 50 years ago. "You only have to really want to and believe in something to succeed." This election slogan by the famous Graf Zeppelin also shaped the life of Erwin Hymer. In 1956, "Mr Hymermobil" followed his father's call and returned from the Dornier factory in Friedrichshafen to the family business making farm wagons in Bad Waldsee. Then something happened there which would soon change the course of history. The engineering expert Erich Bachem asked whether he could build a caravan. Erwin Hymer could, and the result was the prototype of the ERIBA Troll in 1957. The first motorhome, the Caravano, followed in 1961. Since then, the brand and the company have steadily grown to what it has become today.

On the road around the world – The Erwin Hymer Museum invites you on a tour of discovery through the past, present and future of touring travel.

A permanent exhibition covering over 6,000 square metres presents more than 80 historical caravans and motorhomes. Visitors tour dream routes all over the world! Discover the cultural and historical background of touring travel. Plunge into the history of the pioneers. Experience the thrill of technology, development, production and design. Discover and experience the particular longings of your time. The world of touring travel not only enthral fans of touring, engineering and design but also the whole family! The Erwin Hymer Museum is a hands-on and interactive museum. So let's get going – the tour has begun!

You'll find all the dates of guided factory tours, our offers for travel groups and information on the Erwin Hymer Museum at www.eriba.com or www.erwin-hymer-museum.de

Note:

This brochure describes the series status at the time of publication. Despite careful checking of the contents, printing errors are not excluded. During the course of the model year, we retain the right to make changes to equipment or product improvements. Before signing a contract of sale, please ask our authorised HYMER/ERIBA dealer for our current products and series status.

Some vehicles include optional extras which are quoted in the current price list and available at extra cost. The decoration illustrated is not part of the HYMER/ERIBA scope of supply. The details of scope of delivery, appearance, performance, dimensions and weights of the vehicles – deviations within the factory tolerance limits (max +/- 5%) are possible and permissible – are valid at the time of going to press.

They conform to European provisions governing homologation; they may change up to the time of vehicle purchase or delivery. Your HYMER/ERIBA contract partner will gladly provide you with information on changes and the standard scope of delivery.
